Hoffman-Kane Pump Repair Services

We have recently acquired and renovated 7500' square feet of space dedicated to our pump repair shop. We have all the equipment and capabilities to take your pump from beast to beauty, in shop, from start to finish. We repair the metallurgy, the seals, the gaskets etc. giving us full control of costs and production time. We will repair your pump back to the original manufacturers specifications or better. We also have access to after-market and upgraded wearable parts to increase your mean time to repair.

Hoffman-Kane Alignment and Vibration Services

We have recently acquired and trained with the Acoem RT-300 Eco-system laser alignment system. RT-300 customizable ecosystem, you'll get the information you need to pro-actively identify maintenance needs, and make smarter, confident decisions. But it's more that We can determine vertical and horizontal misalignment, vibration diagnostics and bearing vibration checker. This tool is useful in the shop on new or repaired pump skids or in the field with alignment issue, installs or preventative maintenance.

Hoffman-Kane Custom Pump Skids

We have the capability to take an idea and build it into a solution that will handle whatever you throw at it. We fabricate our skids in-house from A to Z. We can start with Summit Pump-Flo™ to calculate the system information to build a skid that is appropriate for your application. With our extensive knowledge and experience of pumps, seals and operations, you can rest assured that the skid we build will just work!
